TRACOE cuff pressure monitor (cpm)  
REF 720

The TRACOE cuff pressure monitor is used to fill and monitor the pressure of high-volume-low-pressure cuffs of tracheostomy tubes and endotracheal tubes.

Its characterised features and benefits:
- easy to use
- extra-large, easy-to-read scale from 0 – 100 cmH₂O
- widely spaced scale markings with colour coded target pressure range between 20 and 30 cmH₂O
- precise, reproducible pressure values
- stable metal hook for attachment
- proven German craftsmanship
- incl. 1 connection tube with check valve REF 702

The hook is now made of metal and therefore very stable. It can be attached simply and securely at the bed space.
